

# Ayman Charoui Essamadi

Tarragona, Spain · +34 612 443 796 · [aymanessamadi72@gmail.com](mailto:aymanessamadi72@gmail.com)  
[linkedin.com/in/ayches](https://www.linkedin.com/in/ayches) · [github.com/AyChEs](https://github.com/AyChEs) · [ayches-dev.vercel.app](https://ayches-dev.vercel.app)

Full-stack developer with over a year of production experience on a multi-tenant SaaS platform used by clients such as GALP, AENA and Celsia. Strong foundation in Java, with additional experience in Ruby on Rails and PHP. Currently pursuing a Bachelor's degree in Software Development.

## EXPERIENCE

**Full-Stack Developer · Etecnic** Jul 2025 – Aug 2026  
*Tarragona · Multi-tenant SaaS for EV charging management (GALP, AENA, Celsia) · Internship converted to permanent contract*

- Built REST endpoints with role-based access control, covered by RSpec tests.
- Delivered invoicing internationalization across 9 languages, with automatic language resolution per client.
- Migrated invoice PDF generation to an HTML/CSS pipeline running inside continuous integration.
- Contributed to a per-domain white-label branding system for multi-tenant clients.

**IT Technician (Internship) · The British School of Costa Daurada** Jan 2024 – May 2024  
*Tarragona · Systems and network support: Windows Server, Linux, Office 365*

## FEATURED PROJECTS

**CineFlow Booking Engine** [cineflow-ufe0.onrender.com](https://cineflow-ufe0.onrender.com)

- Full cinema ticket booking system with advanced concurrency management.
- Built with Laravel 12 and PHP, implementing real-time seat-locking mechanisms.
- Stripe payment integration and a dynamic, demand-based pricing algorithm.
- **Stack:** Blade, PHP, CSS · MIT License

**Zellige Hotels** [zellige-hotels.vercel.app](https://zellige-hotels.vercel.app)

- Cross-platform hotel management system with a scalable architecture.
- Full-stack development with TypeScript and Java, pairing a modern frontend with a robust backend.
- End-to-end management of bookings, guests and properties with performance optimization.
- **Stack:** TypeScript, Java, CSS · MIT License
